Website for **Union** for their new rental bussiness. The design and website making is clean with varity of element and responsive. The website was made keeping the middle class family in mind so that they can get addordable houses and it is made user-friendly.

The user interface design was made for a Mobile rental app called **Northern Xscape** which is a snowmobile and jetski rental app in three prime locations in Ontario. There are tons of options available for bikes as well. There are various features available in the app and it is user-friendly.
